

The 18xx games are in order of starting from p2 onwards. Railway Rivals RR2416NIL is on p9, Outpost M17 is on p10, Puerto Rico M1 is on p11 & p12, Puerto Rico M1 is on p13 & p14. The Games That You Play is below.

New Games: None. The 1861 did start last time with the three interested players.

This issue has probably taken longer than any other. Good thing that I don't have to work then eh? I did have an AGM to wrangle which took up a deal of time and I made a right pig's ear and trotters of the Railway Rivals which also slowed proceedings as I confessed to the players and asked for several other offences to be taken into account.

Nevertheless ... I am leaving the deadline as intended. Please advise if this creates any difficulties and we will take appropriate action. If I push the deadline back a week then we will end up bumping into Christmas.

Meanwhile the Zine Poll - run by Alex Richardson - is back. I guess that it is of, at most, passing interest to any of us ... but the details are below anyway. So there.

2020 UK GAMES ZINE POLL - WHO MAY VOTE? Anyone who reads at least ONE eligible zine.

HOW TO VOTE. List all of the eligible zines that you see and give each one a mark between 1.0 (low) and 10.0 (high), to one decimal place if you like. Editors may vote for their own zines. Votes should be sent by e-mail from the voter's own account to [alex.bokmal@googlemail.com](mailto:alex.bokmal@googlemail.com). The Poll deadline will be midnight on SATURDAY 31ST OCTOBER 2020. Results will be sent by e-mail to each voter and (I hope) published by a zine editor near you.

ELIGIBLE ZINES Astradyne, The Cunning Plan, Dane's Games, Devolution, Extra Time, Ford Super League, Four Track Mainline, Fury of the Northmen, Gesundheit, Hopscotch, In Off The Post, Last Orders!, ...mais n'est-ce pas la gare?, Minstrel, Ninety Minutes, Obsidian, Ode, Open Management, Outbreak of Heresy, Quartz, The Tangerine Terror\*, To Win Just Once, Variable Pig and WIMM? (\*will be included if an issue appears before the Poll deadline.) If you can think of anyone who has been missed out, or shouldn't be there, please let me (Alex Richardson) know.

Graham is in the lead, Tim is earning more ... what does it all mean?

I have asked for OR12 only presuming OR13 & SR10 will happen the time after which in itself presumes that the game will not end before SR10 - but it won't will it not?

I am going to track expected run earnings against actual run earnings. Because I can. A routine will perform each run 10,000 times giving average earnings. For example, in run 7.1 the average was 11 for each of CLEO & RED and 8 for DELTA. The reality of the single shot actual run was of course different. How valid this comparison of average and actual points will be is another matter. But it will help keep me off the streets.
