

The 18xx games are in order of starting from p2 onwards. RR2489HS2 is on p9, Outpost M18 is on p10, St. Petersburg M6 is on p11. The Games That You Play is below.

New Games: The waiting lists continue to show no sign of another start in the near future ... which is often the case at this time of year.

I am away for a few days soon after the next deadline so I originally thought to delay (the deadline not the trip) to the 24th. However, that date seemed more likely to be a problem especially for those who prefer to send their orders on or near the deadline (like me) or even after the deadline. Plus this issue is appearing quicker than usual. So and thusly - expect next issue's turnround to be maybe a week longer than usual.

In the meantime, good luck for the "holiday" season, I will see you all on the other side.

COMMENTS

John Shelley 1st

Well, having spent most of the game at the bottom of the pile I wasn't expecting that result especially as I had one less certificate than the others, but am very happy to accept it. On the basis of this game 1861 works well with just three players, but probably more care has to be taken as to which Minors are purchased. Thanks to Stephen and Tim for taking part and to Rob for presiding over it all. I've asked Rob to put me on the waiting list for another 1861 so if want a chance to get your revenge.....

GM

I enjoyed this game which ended with all three players having at least 33% of the final total value. John S beat Stephen W and Tim P - with especial appreciation for Tim who was playing the game for the first time. Another 1861 would indeed be a good thing ...

The OR9 operating order is - C&O, B&O, PRR, NYNH, Erie, NYC - unless changed by SR8.

John S gains the BYE directorship and Tim is confirmed as the first director of the SxE. I ask for orders up to and including SR5 ... but we stop after SR4 if any company changes director or if a 3 train has been bought.

The OR3 operating order is - B-M, B-P, Mag, K-M, B-S, A-K, SxE, ByE.

David & Mike head south, John & Tony head towards East Anglia (that fabled land beyond the ken and skill of the map maker). Tony also ventures south - about as far as seemed immediately sensible.

Building Allowances

The building allowance for each of rounds 1-6 will be derived from three die rolls in the range 4 to 6 with no one round ever having more than one roll of 4. The building allowance in round 7 will be 12 points (plus payments to rivals) and will then decrease by 2 for each subsequent round.
