Privates Owned by ShareCos : PRR - CStL.

The OR4 operating order is - B&O, C&O, NYNH, PRR.

Pairings continue with DHAN & ZRR often swapping payments and running against each other whilst GITCO & GRAZ have runs against each other. Many routes were similar in length and earnings from the runs were similar except for GRAZ who could only enter three races. Final scores have DHAN regaining first just ahead of ZRR with both somewhat ahead of GRAZ & GITCO who are close to each other and still in contention.

I imagine that there is all to play for as we enter the last half of the operating rounds.

In the run results chart above, the first line shows the race result points, the second line shows the payments from and to other players, and the last line shows the run length along with the choice(s) of endpoint (where they existed). Joint Runs and Exchanges Of Running Powers will also be noted on the first line. In all instances abbreviations may be deployed.
