

The 18xx games are reported from page 2 onwards in order of starting. RR2099CH is below, Outpost M9 is on Page 16, St. Petersburg M2 is on Page 17. 1830E26 comments from Tony S are on page 11.

1870E25 & 1856N25 are held over - nothing from Roger K. The games will run next time come what may.

A busy gaming month with MidCon next week and Eastbourne the week after. Yesterday was the monthly session at my brother's place and a mountain of games from Essen. Apparently 600 new titles were released this year - I thought board gaming was meant to be a sub-minority interest. I tried Last Train To Wensleydale, Atlantis, Dominion Seaside and the cod & chips with baked beans instead of peas. Jim Sutherland got the last pint of Seafarers so I had London Pride. Last Train was fiddly but I'd play again. Atlantis was light but perfectly fine to fill a gap in the day and Seaside will be hard to avoid. Dominion is always okay to play - it's social and quick although the Seaside cards will cause more thought - but players do seem to split into the casual and those that have run simulations of all possible combinations.

ROUND 6 [BUILDS 5,6,6]

A bumper set of payments, except for TANG who stays clear of that sort of thing. The two runs to Special Destinations for Round 7 are long haul treks (Can trains trek? Does the pope?) between north and south ...

DEADLINE

ROB THOMASSON

FRIDAY 27TH NOVEMBER, 2009

205 TOLCARNE DRIVE, PINNER, MIDDLESEX HA5 2DN

And so we reach the end you knew was coming ... with Tim claiming victory ahead of Stephen, who quoth ...

Well played, Tim - his comprehensive SR action, just before the 6 train I think it was, made all the difference but I have to say that I had hoped for better dividends from the CA's Diesel!

Any other comments received will be printed next time. Good and steady play throughout but there was that momentous dealing round with new companies coming out all over the place and with some then moving between presidents. Attention to the operating order in the following rounds was a key point.

Good game - thanks to all for making it so.

Brisk and focussed. We end up, as is so often the case, poised on the last 4 train ...

The B&O finally floats. Mark is in touch with the leaders but will fall back as the B&O does not pay in OR7. On the other the B&O has cash enough for a permanent train if it so desires - and all others but the B&M have to invest to buy one. Jolly interesting eh what?

COMMENTS

Tony S - Well, I know I was in pole position for this game, but I didn't expect such an early finish and was a little concerned that my ownership of just one company might cause me to be pipped at the post. But all's well that ends well, and I can now safely say I have notched my first ever postal 1830 win after about a zillion tries. Hope that doesn't make anyone else feel too much like losers, but sometimes the nice guy wins !!!! Thanks to all for a good tussle and thanks to Rob for GMing.

1830E26

WON BY TONY

That seemed to go okay. I don't think it was mentioned but we are using the optional 2+2 & 5+5E trains. Also, as Mike R has requested, I need to say how we will handle the Merger Rounds. A good question and the answer will depend on the situation. Not all merger rounds will be equal.

The OR3 operating order is - K-R, N, M-K, O-K, StP-W, K-B, R-O - unless changed by SR2.

Short and sweet for most ... three bids made, each without possible competition.

Next time we will stop after OR3 if a 3 train is bought in that OR. I hold that to be immensely unlikely (and quite possibly impossible without collusion between players). If a 3 train is bought in OR4 then I will assess the situation for whether we combine the Merger Round with the next Stock Round.

I will make the same comment as for 1861W27 - That seemed to go okay. I don't think it was mentioned but we are using the optional 2+2 & 5+5E trains. Also, as Mike R has requested, I need to say how we will handle the Merger Rounds. A good question and the answer will depend on the situation. Not all merger rounds will be equal.
