

The 18xx games are on page 2 onwards in order of starting except that 1856028 is held over - orders on file from all but Mark H and they will be used if not replaced (the game runs next time come what may). Outpost M10 is below, In The Year Of The Dragon M1 is on page 14, Railway Rivals RR2154ND is on page 15.

1861X29 will start for David H, Don S, Stephen W & Greg P with the first SR being handled by email.

So this week I have - amongst other things - seen Terry Reid at Ronnie Scott's and played Titicaca and Egizia. It was my second Titicaca and it made more sense than my first game and I rather liked it. I'm not sure how anybody creates such a game and even though the Hottest BoardGameGeek Forum entry for the game says it is the love child of Vom Kap bis Kairo (que?) and 18xx, I don't see that. It was my first Egizia and it was immediately appealing with the usual more plays needed to see if it has balance and staying power. Terry Reid, and his band with added BJ Cole, were just superb and even though the venue was of course resolutely not rock'n'roll it did enable getting up close and personal and for expensive good drinks.

OUTPOST M10

ROUND 6

As we teeter on the brink of phase 2 the only visible competition is for the last Nodule. Meanwhile at least one of the players bemoaning their luck at the production values will be relatively happy this time. And when we are in phase 2 the default choice when a Mega Card is possible will be to take the Mega.

Round 6 Actions

- David Bought one Water Factory (o:4 w:7,9)
- David Bought one Population Unit (o:4 w:6)
- Jeff Bought one Water Factory (o:4 w:7,9)
- Jeff Bought one Population Unit (o:3,3 w:4)
- Mike Auctioned a Nodule for 25. John joined at 26, Dane at 35. Mike dropped out, John bid 36 & Dane dropped out. John got it reduced to 31 after Heavy Equipment discounts (w:7,7,9 t:8)
- Mike Auctioned a Data Library for 15 and got it for 15 (w:7,8)
- John Passed

Remember that when Moscow (G8) is promoted to a grey (639) tile, one of the stations is annexed by the RSR if it does not already have a garrison at Moscow. That fact, and in another instance - cost, prevented all the intended garrisons being placed. Meanwhile, I have requested SR7 orders for next time - but if you want to pause after MR7 then just let me know ... the sooner the better so that I can tell the other players.
