

The 18xx games are on page 2 onwards in order of starting, RR2187B is below on page 1, Outpost M11 is on page 15 and St. Petersburg M3 is on page 16. The Games That You Play is on page 17.

New Games: Railway Rivals Map C starts below for those expecting it. Once Christmas and the New Year are done more 18xx will start - the 1835, 1861 & 18EU will head the pack.

There was no reaction to the idea of winners' games. And after I had sent the last issue I remembered that when the opportunity arose I already seed games - that is, I group players with better (or worse) track records at that particular game. So I think I will just continue to do that, sometimes inviting players not on the waiting list to fill a particular game to make it balanced/interesting.

RAILWAY RIVALS RR2188C

GAMESTART

You are ... David Hooton, Brad Martin, Mike Ruffhead, Tony Sait & John Webley. All I need from each of you for the next issue is preferences for start town, colour & company name.

The map version that we are using is at ... [http://rob.thomasson.com/Resources/RR Map C \[DP\].png](http://rob.thomasson.com/Resources/RR Map C [DP].png). The start towns are Milwaukee, Chicago, Memphis and New Orleans. One player will start at each town with a second player at either Chicago or Memphis. In your preferences you can include Chicago with one and two starters as separate entries, same for Memphis. I will resolve ties as usual with die rolls.

The OR11 operating order is - DR, KBS, SNCB, FS, SNCF, KPEV, NS, KKOS.

I managed to somehow mislay the MK base at D1 during OR10 with the result that the GRR really ran for 20 less than reported - starting cash adjusted for this adjudication. Mike has pulled away from the rest of the "tight at the top trio" of last time but the item of obvious interest is to see just how much impact the newly train enhanced MKV & GRR will be able to have on the player positions before the games ends after OR13.
