

The 18xx games are on page 2 onwards in order of starting, RR2187B is on page 12, Outpost M11 is on page 13 and St. Petersburg M3 is on page 14. RR2188C is held over - nothing from Brad which is most unusual as he is normally one of the first to send orders. The Games That You Play is on page 15.

New Games: An 1861 starts below for most of the waiting list. More 1856 players needed ...

Yes, despite the weather surrounding me, I have manfully completed Minstrel 356 and here it is kicked out the electronic door and awaiting your valued inspection. I did have to travel yesterday evening and was glad that I had front wheel drive - my son-in-law had a much more torrid time in his rear-drive Merc but did make it home eventually. Today was much easier as I went out to help restore an abandoned babysitter's car to its rightful home. Glad to say that just about everybody driving was being sensible and taking due care.

SR1 STARTING BY EMAIL

**END GAME COMMENTS****18EUH30 - Mike R**

Congratulation to David Hooton on his well-deserved victory, and thanks to Rob for his adjudication. Finishing second is probably better than I deserved given the disconnected minors I inflicted myself with, and that I missed my chance to rid the KBS of the 3-train before #10 disappeared.

**18EUH30 - David H**

My first company, DR, was something of a late bloomer in terms of income, but I was able to start SNCF the ideal spot to get a great London-Paris-x-x-Hamburg run. Thanks for running this game, Rob.

**1861J30 - Lyndon**

This game went very smoothly until MR6, when I became obsessed with the thought that if I converted the M-NN its '3' train would have disappeared before it ran in OR9. This convinced me that I should avoid this possibility by merging the M-NN with the O-K. This was a bad move and the conversion was a much better option.

I compounded the error in SR5 by making a raid to take over Mike's MKN. Superficially it looked good but in reality it was the error that finally threw away the winning position. I was left holding too few shares and my dividend income suffered as a result, allowing both Pete and Mike to overtake me.

Congratulations to Pete on his win and thanks to Rob for running the game with his usual efficiency.

**1861J30 - Mike R [also published last time]**

Hmm - I don't think Lyndon will catch me, but I fear Pete probably will. The impact of potentially nasty garrisons is likely to be significant - so I'll just have to hope for the best. Good close game, though, whatever the outcome. If I should win, then Woo Hoo! And if not, hats off to whoever beat me.
