

The 18xx games are on page 2 onwards in order of starting, RR2187B & RR2188C are on page 13, Outpost M11 is on page 14 and St. Petersburg M3 is on page 15. The Games That You Play is below.

New Games: An 18EU will start soon - Tony is just about on holiday as I write so I will wait for his return before sending out the emails to initiate SR1. No other 18xx waiting list has achieved five names and The Year Of The Dragon list probably has a vacancy as Brad continues to be absent.

A tad later than usual as a couple of us were away last week for a few days of games, Wetherspoons breakfasts and related activities. Others of you had a week of games in the Yorkshire Dales. It's lucky that we're all retired or work could have really suffered in the face of these priority activities.

I have also started minding my 8 month old grandson on occasion whilst my daughter gets some (paid) work done. That's rather more hands on (it's been twenty three years since I last changed a nappy) than just walking into the local centre for coffee/lunch with them at the café in the park which has been the twice-weekly norm for those 8 months. But of course I have the standard grandparent view that it's really great to have frequent time with your grandchild as they develop - and it's also really great to be able to hand them back for the normal wear and tear activities of raising a child. I like a good night's sleep.

John W & David help fund diesels to varying degrees and John S earns the most in dividends. I don't see any player going bankrupt in OR12 so I will ask for both that and SR8 for next time.

The OR11 operating order is - PrE, ByE, SxE, HeE, WtE, BaE, MsE.

The GW ran for \$10 more in each of ORs 5 & 6 than reported - start cash adjusted for Tony & John (no effect on SR5) and credit for GW. This time it is just OR7 as requested and advised - and that one OR is enough to get the first 5 train bought.
