

RR2188C finishes below. The 18xx games are on page 2 onwards in order of starting, Outpost M12 is on p17, St. Petersburg M3 on p18, In The Year Of The Dragon M2 on p19 & p20 and The Games That You Play on p21.

New Games: 1830B34 starts below. Looks like a new 1835 next, and 18EU and 1861 are barking too.

And so another Minstrel staggers into the light blinking furiously ...

**RAILWAY RIVALS RR2188C**
**ROUND 12**

M&P was the only entrant for run 36. GRID rejected STARR's offer whilst taking heart from that very need. STARR then took run 37 unopposed. GRID was tempted by run 38 but wisely stayed away as the other three raced and M&P lost out to the longer GITCO route. GRID did enter 39 but was crucially beaten by both STARR & GITCO. GRID recovers some luck in run 40 and romps home in run 4, and1 then the luck charm passed to GITCO who won run 42 with time to spare.

GRID earns the most in this last round but not enough to overtake STARR. Obviously that is determined by all the runs not just this round, but a first for GRID in run 39 would have given him the game. Meanwhile M&P earns the least in his round but hangs on to claim third place ahead of GITCO. Tony has sent comments and these, plus any others received, will be printed next time.

Andy Thanks to all gamers and to GM. A close middle game. I thought I'd really had it when becoming president of a trainless BBG, but being able to time the CGR was paramount - though I never thought I'd be president of that! I expected either WR or CV to be put into it.

Tony I think I just managed to snatch defeat from the jaws of victory there ... not quite sure how I managed it, maybe should have tried harder to block BBG in rounds 14/15 but anyway, well done Andy.

Howard I only had two goals for this game, one was to learn something and the second was to avoid screwing up the game for everyone else through sheer incompetence. Hopefully I achieved the latter. By sheer good fortune I dropped the wooden spoon, but I'm not that sure that I'm much further forward in terms of learning how to play it properly.  
Congratulations to Andy (assuming he does in fact finish first) and thanks to Rob for allowing me to get involved and his patience with my poorly scripted orders.

John Just amazed that I didn't come last, I really have never got to grips with this version, congratulations to those who have.

GM An unusual but fascinating game that ran for longer than normal courtesy of an extended pre-CGR pause and ending up with record earnings. Andy wasn't the only one expecting the WR to go into the CGR but the delay caused a capital build up that just skewered John by (I think) \$2. The manoeuvring around the CGR formation was crucial and you did need to have a grip on this version of 18xx to come through it unscathed. Kudos to Howard for making it through his first game - but it could be tricky to remember enough from a game that lasts so long to give benefit for future games. Thanks to all - especially those I volunteered into playing - and congratulations to Andy.

The OR16 operating order is - SLSF, SSW, MKT, FW, SP, GMO, IC, MP, TP, ATSF.

Dividends did increase and enough that the game did end with OR16. The extra income helped Tony creep past Mike R for third place but victory went to the expected Mike B with David H in second place. Any comments received will be printed next time.
