

The 18xx games are on page 2 onwards in order of starting except that 1830U34 is below, Outpost M12 is on page 13, In The Year Of The Dragon M2 is on p14 & p15 and The Games That You Play is on p16.

New Games: Hmmm, I have not started the threatened 18EU yet. If there was one more taker then I would have to start two games. The other lists have got the summer slump as outside activities beckon.

There is just this one line of so called chat in this issue. So - how are you? I'm okay thanks. Moving on ...

SR1 & OR1

There were no takers for the B&O Private so it will be on offer again in SR2 - along with the ability to sell shares.

Lyndon (well done!) duly wins and Stephen nearly catches Pete. I had minor differences from some expected run value (thanks to those who specify possible routes) but the result would be the same with either set of run value opinions.

Mike has commented on the game and that and any others received will be printed next time.

So that's four companies that will operate for the first time in OR9. The GCR could be formed so please send orders for your decision if faced with a choice during that formation.
