

The 18xx games are on page 2 onwards in order of starting except that 1870X33 & 1835M34 are held over (email sent to players to confirm those situations). Outpost M12 is on page 12, In The Year Of The Dragon M2 is on p13 & p14 and The Games That You Play is below.

New Games: 1829F35 starts below. Then there are a slew of titles on the brink of starting.

The 18EUF35 Minor Company Initial Sale Round has concluded by email and the first two ORs are reported on page 11. 1830F33 concludes with John Shelley as the clear winner. That is all.

1829H35

GAMESTART

You are ... in dealing order ... Mike Ruffhead, Tony Osborne, Andy Muir, Mike Bennett, David Hooton.

Welcome to 1829 Mike B - in particular you should watch out for the other Mike. Actually also David H who always presents a challenge and Andy of course will surprise you (in a good way). Oh, and Tony wins every 1829 he plays except for the rare occasion when he loses. So, er, enjoy!

The OR15 operating order is - CV, CGR, WGB, CPR, GT, TGB, CA.

Forced sales and the odd purchase are made, the bank runs out of cash and the game runs to conclusion without any surprises as John duly wins at a gallop. Any comments received will be printed next time.

No dramas here as required sales are made and portfolios are topped up as cash allows. The GCR will be run by the Receiver who is pleased to see that a nice 7 train run us ready and waiting. The Receiver is unsuspecting so will place no bases and also undaunted so will embark the task of building to London through J9, I9, H8 or H9, G8 and F8 or F9 until that is impossible. Along the way the thought of gaining a new route by connection to J8 or I8 will occur when the purchase of a 7 train is looming. For clarity - the Receiver does plan more than a turn ahead so will not start by trying to upgrade F9 to be a 46 tile.

Last time I said that Pete got 6 VPs for Firework action but we all know that it was actually Mike that earned those VPs. As usual with my errors the totals in the summary were correct (those are checked against an alternative source - whereas the detail does not have such a checkpoint facility). No doubt those words will come back to haunt me.
