

The 18xx games are on page 2 onwards in order of starting. Outpost M13 is below, In The Year Of The Dragon M2 is on p14 & P15 and The Games That You Play is on p16. 1861R34 comments are on page 6 after the 18EUF35 report.

New Games: This time - no game ended and thus no game starts.

Despite the heat something happened and this is a record turnaround for Minstrel in recent living memory.

OUTPOST M13

ROUND 3

For the record Jeff did text his orders for last time. However, there was and is no evidence of their arrival. But it makes sense - we know Jeff will do everything possible to keep a game going. He once lamented the lack of orders from a player, who cited a broken elbow, pointing out that he could've used his feet to type.

This time two Nodules and two Data Libraries are bought with nary a replacement amongst the new arrivals.

DEADLINE : FRIDAY 15TH AUGUST 2014

HOST : ROB THOMASSON

Stephen & Lyndon broach their personal cash to help with train purchases. A lack of some tile types proves to be a nuisance - as it so often does at this stage in this title - but even so a couple of connection runs are achieved.

The 3 trains are no more. I changed some tile orientations when the intent was obvious and the request was invalid. Better than requesting tiles that are not available and/or not giving alternatives.

COMMENTS

John Shelley 1st Gosh! For once it all went well, although I must admit I'm still not too sure how or even why I came out on top. Really, I still don't know I managed it, so my next game is likely to be the pits. Certainly having 2 Moscow PCs that could be bought by the same one of my Minors which gave a good boost to its, and my, finances, almost the equivalent of an extra city on the run value plus the income for the company each OR was useful. A pity that the SW didn't manage a base in Moscow, but I suppose you can't have everything. Thanks to all for playing and to Rob for running the game.

David Hooton 2nd Congratulations to John for winning and thanks to Rob for running it. I really should play an 1861 game in which I get a token in Moscow...
