

The 18xx games are on page 2 onwards in the order of starting. Outpost M13 is on p13 and The Games That You Play is on p14.

New Games: 1830L7 starts on p2, St. Petersburg M4 starts below. Next up would seem to be an 18EU.

What occurs first to me? My kitchen has been gutted and I saw Nils Lofgren last week. That's it.

ST. PETERSBURG M4
GAMESTART

Welcome to the fourth Minstrel game of St. Petersburg. In player order you are John Webley, Mick Haytack, Mike Ruffhead & Stephen Webb.

We will usually have one phase at a time but to begin with we will have both the first Workers phase and the first Buildings phase. The Buildings shown below are in order of availability - so if, say, only six Workers were bought then of course only the first six Buildings, counting from the left, will be available.

Stephen has first go at the Workers and John leads off for the Buildings.

DEADLINE : FRIDAY 6TH FEBRUARY 2015

HOST : ROB THOMASSON

Yes, we are done ... and Mike swaps his \$13 lead at the end of OR17 for a clear margin of victory. Many congratulations to Mike, commiserations to Lyndon and thanks to all for your consistent attention throughout - especially to Jeff for overcoming communication problems when in France.

So, to complete the set, what can be said about Stephen eh? As ever he was a great competitor and joined the rest of you in making it an enjoyable game to run. If anybody does send comments then they will be published next time.

You are ... in dealing order ... Stephen Webb, Don Smith, David Roffey, Mike Ruffhead, Tony Sait.

I think you all understand how to play 1830 in Minstrel but yell if anything is required. You each have \$480.

NEXT TIME – SR1 (PRIVATES)

The GCR & SECR leave the arms of the Receiver. Tony wondered whether Mike would go for the GCR, as did Mike - but he decided that it was important to protect the eastern flank of the LBSC and thus it was Andy who resuscitated the GCR,

All the 5 trains, and all the 6 trains, are bought. The C&O and the NYNH are left without a train. The presidents of those companies both have another company that owns two trains - so there may not be an immediate bankruptcy threat. Even so I am asking for just OR10 next time. If you really want to order for SR7 as well then let me know and if a majority are up for it then I will update the "Next Time" request.

The OR10 operating order is - B&O, Erie, C&O, B&M, NYNH, CPR, NYC, PRR.

When Minor 4 folded into the KKOS last time, the KKOS took on the token in G10. As this is functionally equivalent to the KKOS placing a token in G10 in OR9 I did not advertise the change. Now, please concentrate and check your run values - I had several goes at them and they may now be correct.

The existing companies become 100% owned by their director and then the MsE and OIE are floated with the BaE ownership dropping to 50% in the process. We stop before OR11 by request.

I corrected the odd blatantly obvious tile & hex typo (or misapprehension). But I cannot correct things which are not there. Meanwhile Tony B comments that my map would benefit from column numbers across the top to help the directors with northern tendencies - and he is of course correct. I don't predict an early change to the map but if and when it does happen then those numbers will be added.
