

The 18xx games are on page 2 onwards in the order of starting. 1856X39 & 1856N40 are held over - they will run next time come what may. Outpost M15 ends on p8, St. Petersburg M5 is on p9 and The Games That You Play is below.

New Games: The plan was to start a 5 player 1856 this time but the waiting list went down to 4 players. If we do not get a fifth player by next issue then we will start anyway with the four current waiters - unless one or more of them object. A new Outpost will also start next time (assuming that more players sign-up).

Very close at the front. John W looks to have better share value, George has better dividend income.

I am suggesting that we play through to the end of the game next time. But we will stop after SR9 if any company changes director in that round. Unlikely I suspect.

The Start Packet did not sell out. Only Tim can choose to buy the remaining Braunschweig Private in SR2. If he does not do so then more players will have that option in SR3.

If Tim does buy the Braunschweig in OR2 then the ByE (or even the SxE) could be floated in SR2. We will stop after SR2 if the SxE is floated as that would mean that something unlikely has happened.

George - We can tell that you will be the ByE director in OR2 so please send ByE orders for both OR1 & OR2.
