

The 18xx games are in order of starting from p2 onwards. RR2489HS2 is on p6, Outpost M19 is below, St. Petersburg M6 is on p7, St. Petersburg M7 is on p8, In The Year Of The Dragon M4 is on p9 & p10. The Games That You Play is on p10.

New Games: The next three issues will have starts for 1856, 1835 & 1830 - with precedence for any game that gets a fifth player. We could also welcome a new game of Railway Rivals - possibly an Economic game (rules attached to the Minstrel 482 email)

And now, for reasons of space and adjacency to my consciousness, an advert for a game that needs as many players as it can get to achieve peak chaos. It is of course Grand National and I will have joined the list of hopefuls over at Dane's Games when I send him my orders for the next issue.

Grand National was created by Mick Haytack and Dane will use the [Version 2.0 Rules](#) which include modifications by Howard Bishop. The next deadline for Dane's Games is this coming Sunday 24 July so if you are interested, please make yourself known now to Dane at -- games\*OF\*dane.me.uk (where \*OF\* should be replaced by '@'). In fact, if you don't see Dane's Games then just contact him to sign up anyway.

And, er, that's it. Check my reports early and check them often. Thanks to John Shelley who does just that.

The OR9 operating order is - B-M, B-P, Mag, K-M, B-S, A-K, ByE, SxE, BaE, WtE, HeE.

There can always be something new. Nobody wanted the M&H so OR1 proceeded with just the first three Private Companies paying out.

Next time we will have all of SR2 - meaning that if the B&O Private is bought then the Railroad Corporations will be available (and shares can be sold). The bids made on the C&A will still be there and applicable.

If the B&O Private is not bought in SR2 then we will have OR2 and all of SR3.

NEXT TIME - SR2 [? & OR2 & SR3]

We end with a tight group covering the last three places and Mike as the clear winner. Any thoughts received on the game - and the map - will be printed next time.

Should you be curious [this is a link to the completed map of another HS2 game](#). The final scores with starting towns were Blue 383 [Birmingham], Green 351 [Liverpool], Red 258 [Leeds] & Yellow 207 [London]. It seems that Blue got the benefit of the high-speed route to London without the funding problems caused by starting that route in London. This game was clearly more competitive.

Could the next game be an Economic RR? The rules are included in the Minstrel 482 emails. In any case we need a choice of map and more players ...
